ONE SCREEN. FIVE JOBS.

02 / PRODUCT SYSTEM
ONE DEVICE, MULTIPLE SURFACES

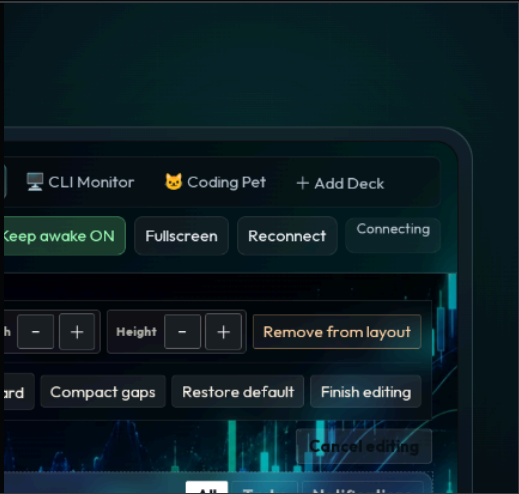

A spare screen does not need to be just a mirror. It can be a purpose-built surface.
ks folder, for example my-deck

02

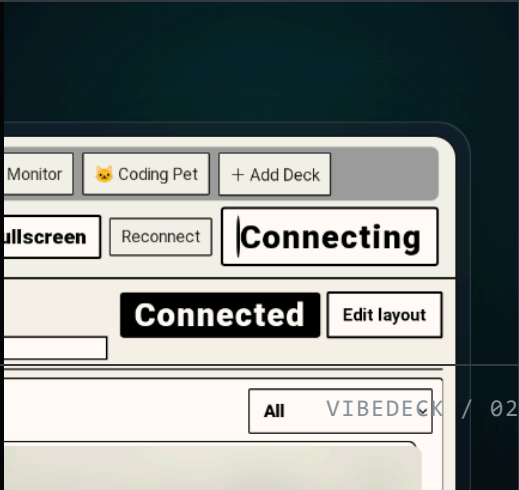

MOVE IT. RESIZE IT.

The built-in Sideboard
is editable, not fixed.

03

E-PAPER

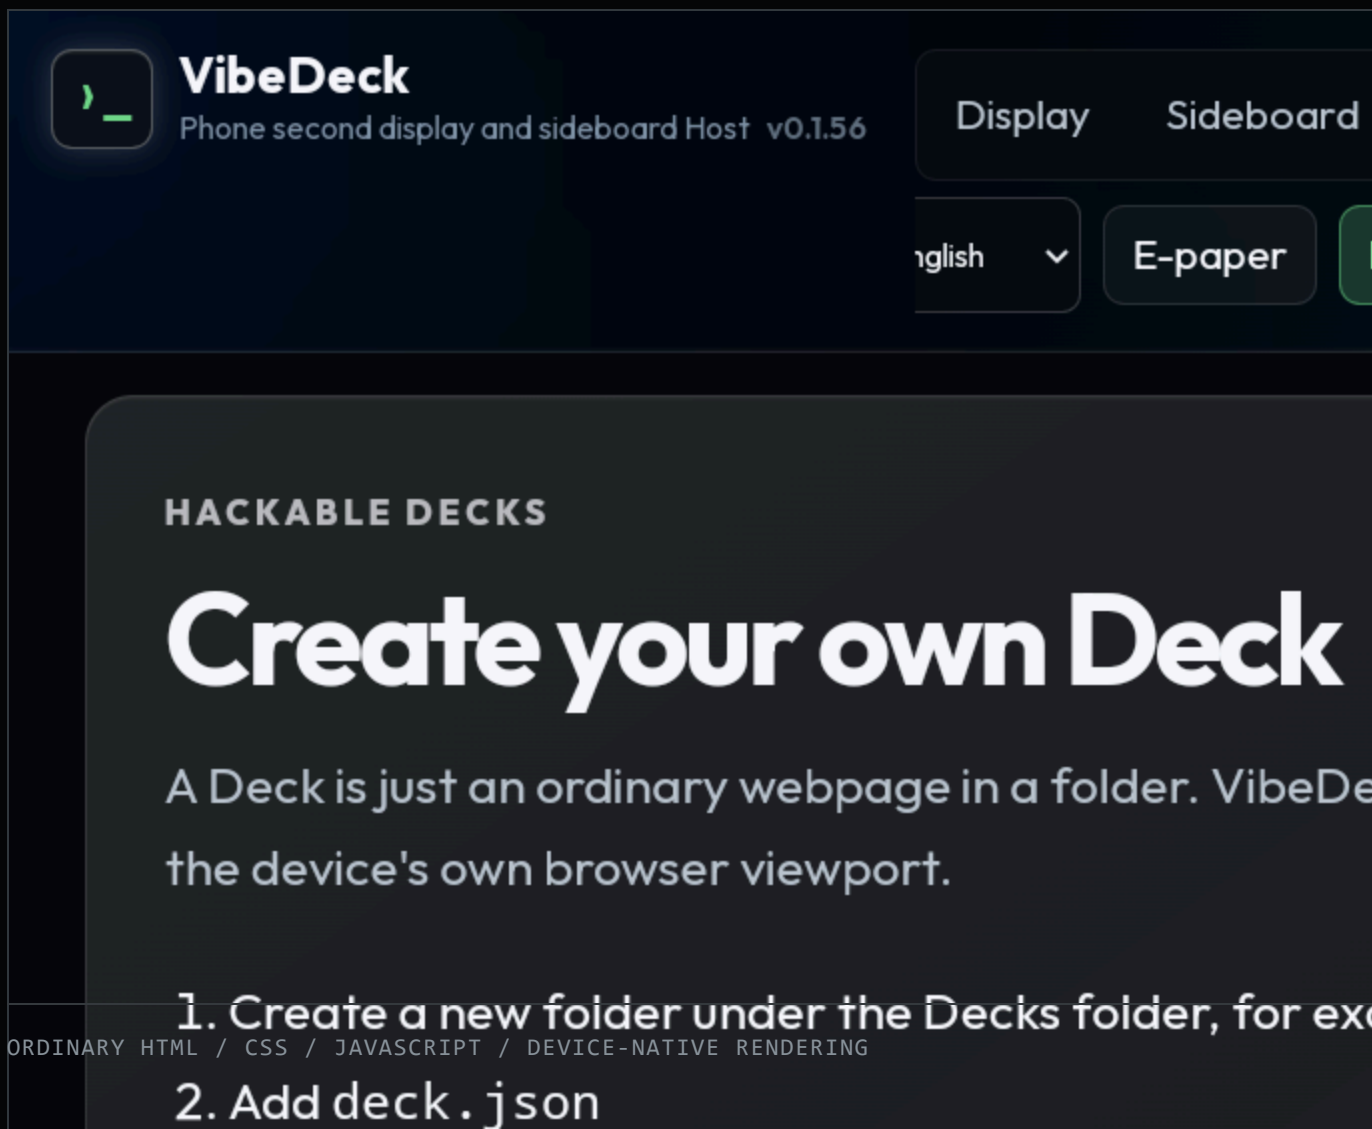

REAL WINDOWS DISPLAY

A REAL WINDOWS DISPLAY. IN A BROWSER.

VibeDeck creates or discovers a
Windows display, streams it to the

WHEN PIXELS ARE THE WRONG TOOL

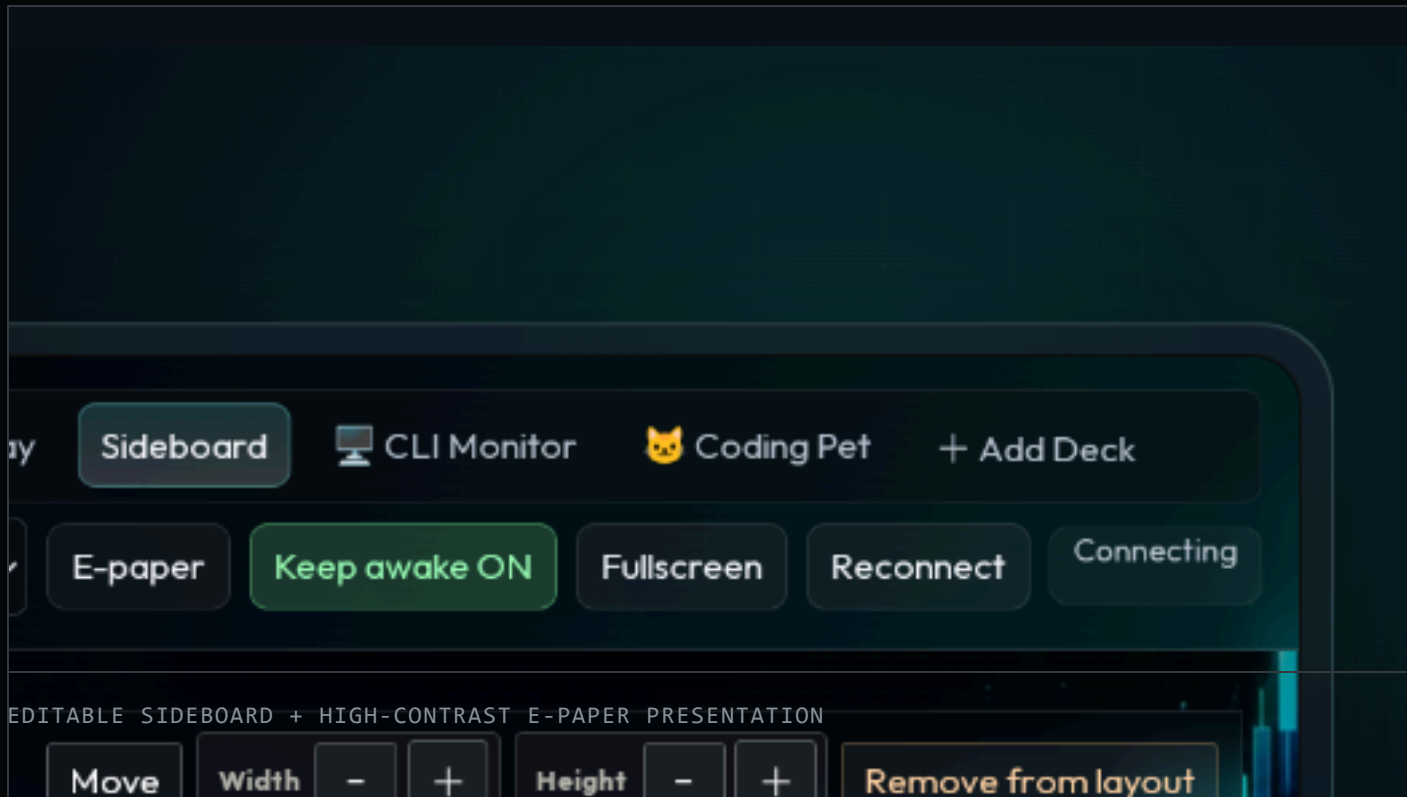

MAKE THE SCREEN YOURS.

A Deck is just a folder with ordinary web files, rendered directly in the device browser. Build a focused interface without a native client, special frontend framework, or locked template.

BUILT-IN SURFACES

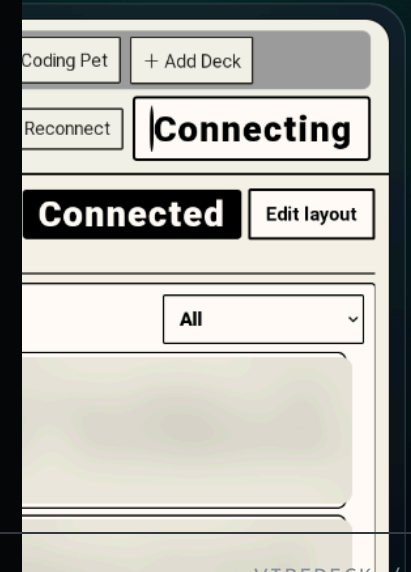

MOVE IT. RESIZE IT. SWITCH THE LANGUAGE.

01

E-PAPER MODE

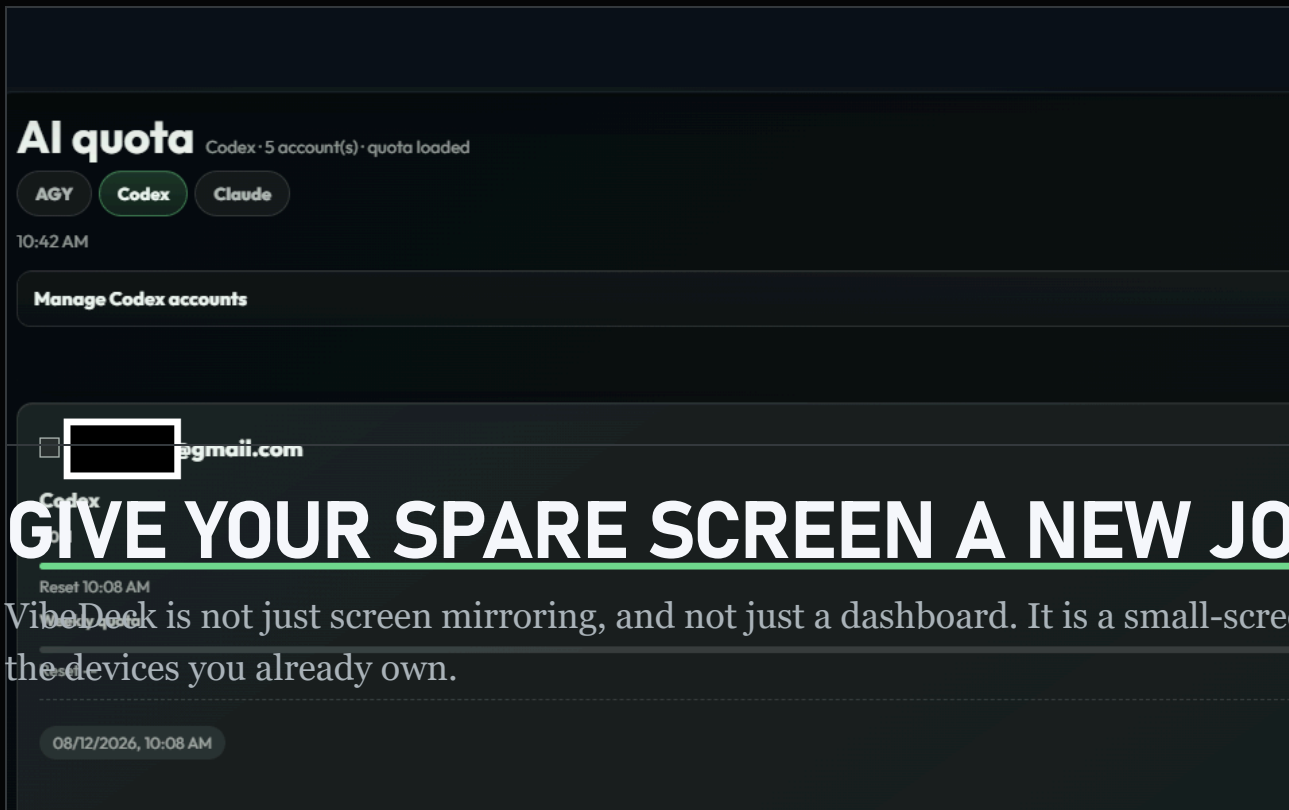

High contrast, bold borders, reduced visual noise.

AI QUOTA + THEME

KEEP THE RIGHT THINGS IN PERIPHERAL VISION.

GIVE YOUR SPARE SCREEN A NEW JOB.

VibeDeck is not just screen mirroring, and not just a dashboard. It is a small-screen runtime for the devices you already own.

THEME

ONE APPEARANCE LAYER
ACROSS THE HOST.
